HIGHLIGHTS CAREER FAIR 2014

TESTIMONIAL CAREER FAIR 2014:

Gaud A. Aziz Hussain

**Projects Department Manager
ABB Electrical Industries Co. Ltd.**

"Thanks for Mr.Naif Ghazal for the excellent achievement he reached during his short interval to our team. His attention to detail and ability to foresee bottle necks and avoid them is greatly appreciated especially during times of extreme pressure. In addition on this particular project the extra hours he worked while maintaining the standard of excellence that is his trademark greatly contributed to our ability to satisfy our clients. His future is bright and full of opportunities. There will still be some challenges as we move forward. However, I also confident that he can handle them, capture the opportunities and build up on the existing success towards new bigger ones"

Alanood Alshalhoub

Thanks to the Alumni office for their effort and for giving me the opportunity to work in a great environment such as Alfaisal University. I feel that my hard work in my two years of studying MBA is appreciated and recognised by the university I studied in, and for that am grateful to Alfaisal for hiring me in my own University.
Thank you.

"The career fair at alfaisal university gave me the opportunity to be exposed to numerous job opportunities, training programs, scholarships and internships, one of which I plan on pursuing upon graduation. Many of these programs are not advertised properly and prospective applicants don't know about them, so I'm very thankful to the University for arranging the career fair where we can get answers to our many questions."

SOME CAREER TIPS FOR YOU:

Most asked interview questions and how to answer them.

1- Tell me about yourself?

Confine your answer to work related stuff.

Never go much into the personal details unless the panel asks you

2- Tell me about your dream job?

If your response is for specific a job role, it's better to make use of the stereotyped phrases like amicable environments ...etc

Do homework by navigating thoroughly through the company's website as it is the most reliable source of information to gather to gather information from.
