The Next Wave of HealthTech in the Kingdom

HealthTech Innovation Summit & Expo will be an industry-leading summit for healthcare professionals and C-level healthcare executives in the middle east that will take a look at using next-gen technologies to push care beyond the four walls of the hospital, connect multi-site systems to work as one, connect people to their own care, and enable integrated care to be delivered at a system level.

HealthTech Innovation Summit

3 days summit in presence dedicated to healthtech and the future of health that will take place in Riyadh will also be featuring the 21st Century's latest innovations, trends & emerging technologies in the digital healthcare era. The expo is targeting medical and healthcare tech's brightest brains and thought leaders in the middle east and around the world.

Why you should be part of the Event!

HealthTech Innovation Summit & Expo, With 70+ exhibitors from 3000+ healthcare managers/executives, will showcase the latest healthcare innovations and technologies bringing together an equal opportunity event where the most promising entrepreneurs from around the world will pitch how their solutions will address current gaps and redefine healthcare to an audience of Investors over 2 nerve-wracking days!

The main benefits take away from the Forum:

- Gain insights and understanding of where the medical sector is heading in the near future.
- Meet and connect with industry peers to collaborate in future endeavors.
- Make partnerships and foster relationships for business opportunities.
- Learn from past experience, understand the current situation and challenges, and discuss future opportunities in the industry.
- Acquire new knowledge on how other organizations, governments, and healthcare providers are shaping their efforts for a connected future.
- See first-hand insights and case studies of how digital technologies and solutions evolved during and post the COVID-19 pandemic.
- Gain valuable knowledge from healthcare professionals within certain aspects of their fields.
- Witness future digital technologies never seen before first-hand.

Workshop
Session

The HealthTech Summit will Feature:

Talks:

Several topics related to the present and future of health addressed by renowned speakers in each respective field. These topics will be discussed both in individual presentations as well as in a group format, to incite discussion, knowledge transfer and a deeper dive into the topics in question.

Networking:

One of the main attractions of the digital HealthTech summit 2023! A place for individuals, researchers, scholars, investors, startups and companies/organizations of all sizes to create synergies with one another and leverage business opportunities.

Startups:

The Summit & Expo 2022 will have a number of Startups presenting their ideas, products or services to investors and participants. There will also be a dedicated Startup Lounge in order to potentiate networking with possible investors.

Stands:

Companies/Organizations will be able to have a stand to show and present their healthcare-related solutions to interested participants that are attending, including hospitals and other healthcare providers.

PEAKERS

will feature multiple speakers renowned in different areas presenting solutions and ideas to help move health and healthcare forward.

Join around 3,000 senior healthcare managers and clinicians striving to transform care and improve quality against the backdrop of Covid-19 and the challenges ahead.

Industry Sectors For Expo!

HealthCare Service
Providers

Pharmaceuticals

Medical Devices &
Equipment Manufacturers

Medical Insurance,
Medical Services, and
Managed Care

How the sectors are connected with each other

FUTURE DIGITAL TECHNOLOGIES IN HEALTHCARE

The Exhibition will address many of the
digital technology pillars

**Artificial
Intelligence**

**Medical
Cybersecurity**

**Cloud
Computing**

**Virtual
Healthcare**

**Surgical
Robotics**

**Machine
Learning**

**Internet
of Things**

**Big
Data**

**Augmented
Reality**

Prosthetics

**Quantum
Computing**

**5g / 6g
Network**

**Blockchain
Technology**

**Wireless
Health**

In some way, these pillars are interconnected and complemented each other!
