15	THE SUMMIT IN NUMBERS	25	PROPTech EXCELLENCE AWARD

My primary goal is for our country to be a successful and pioneering model in the world on all fronts, and I will work with you to achieve this.

Custodian of the Two Holy Mosques

KING SALMAN BIN ABDULAZIZ AL SAUD

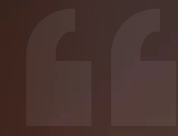

“

We live in an era of unprecedented scientific innovations and technologies, which opens up unlimited horizons for growth and development. These new technologies, such as artificial intelligence and the Internet of Things, if used optimally, can prevent many harms and bring enormous benefits to the entire world.

His Royal Highness

PRINCE MOHAMMED BIN SALMAN BIN ABDULAZIZ

Crown Prince Prime Minister

The increasing importance of the role of PropTech in developing the future of the real estate sector is a true indicator that we are moving in the right direction, as it aligns with the goals of Saudi Vision 2030 to achieve a vibrant society and a thriving economy by providing a conducive environment for growth, creating job opportunities for citizens, nurturing talent, and fostering investments.

His Excellency

MR. MAJED BIN ABDULLAH AL-HOGAIL

Minister of Municipalities and Housing

Chairman of the Board of Directors of The Real Estate General Authority

In the era of the Fourth Industrial Revolution, we in the Kingdom of Saudi Arabia possess the flexibility, readiness, and opportunities through the Saudi real estate regulatory system, which aligns with the market and partners' requirements and ensures the creation of a successful and sustainable real estate industry characterized by innovation and enhanced investment. We strive to move forward to make our real estate sector a leader in digital transformation processes on a global scale and to enhance competitiveness in the fields of PropTech.

ENG. ABDULLAH AL-HAMMAD
CEO of Real Estate General Authority

We gather from around the world to collectively lead the digital and technological transformation of the real estate sector, strengthening the Kingdom of Saudi Arabia's competitiveness and its global position in adopting innovation.

As we continue to advance the regulatory framework for real estate technologies, we are enabling a transparent and responsive environment that supports innovation and entrepreneurship in PropTech, accelerating technology adoption, strengthening public-private partnerships, and creating a unified ecosystem that brings together startups, investors, and sector stakeholders to drive real estate innovation forward.

ENG. RAYAN ALAQL
CEO of NHC Innovation

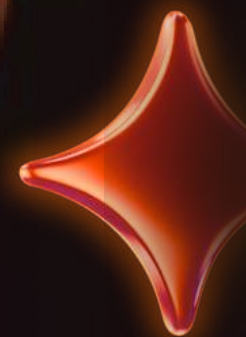

The next phase of real estate will not be defined by individual technologies, but by how effectively they are integrated into cohesive, scalable systems that connect assets, stakeholders, and markets. As digital capabilities mature, the focus is shifting from experimentation to execution, where real impact is measured by adoption, interoperability, and measurable outcomes.

TGPS is designed to enable this transition, aligning regulation, capital, and innovation within a single platform to accelerate deployment, strengthen public-private collaboration, and create an environment where PropTech solutions can scale with clarity, confidence, and long-term market relevance.

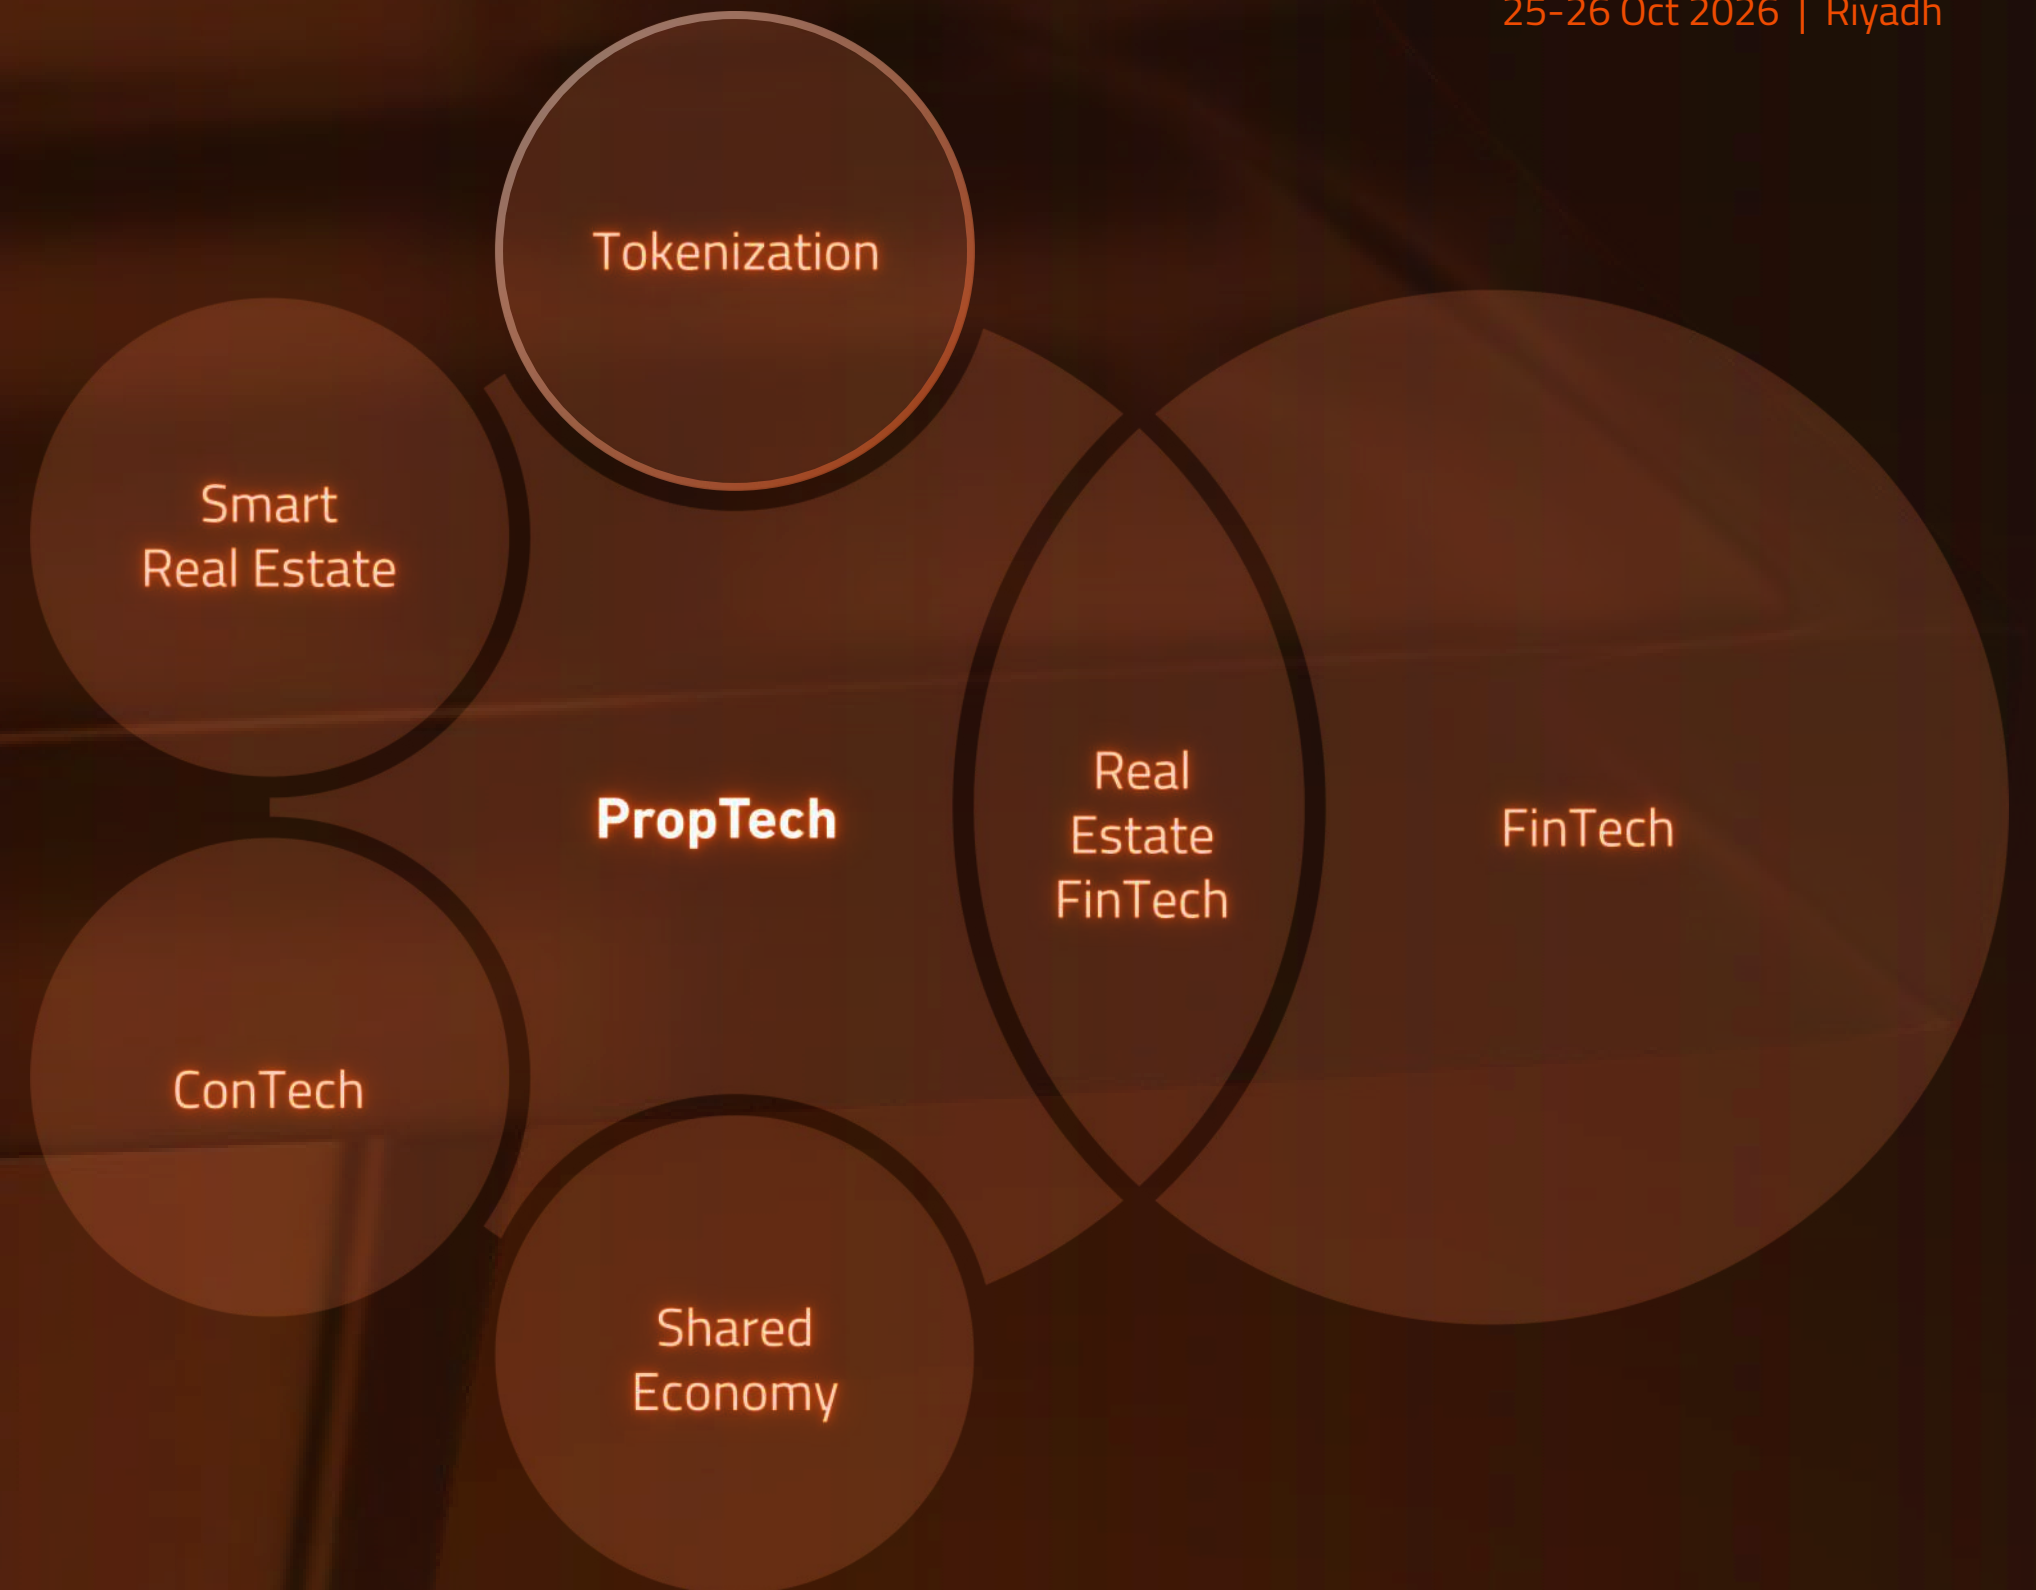

MR ABDULLAH ALHARBI
CEO of Global Proptech Summit

What is PropTech?

PropTech is transforming real estate through integrated, data-driven systems involving AI, digital twins, and blockchain, enhancing transparency and investment potential. In Saudi Arabia, this transformation is supported by Vision 2030 and initiatives like the PropTech sandbox and tokenized title deeds.

The Global PropTech Summit operates as a global platform anchored in this transformation, convening policymakers, investors, developers, and technology leaders at the intersection of policy, capital, and innovation.

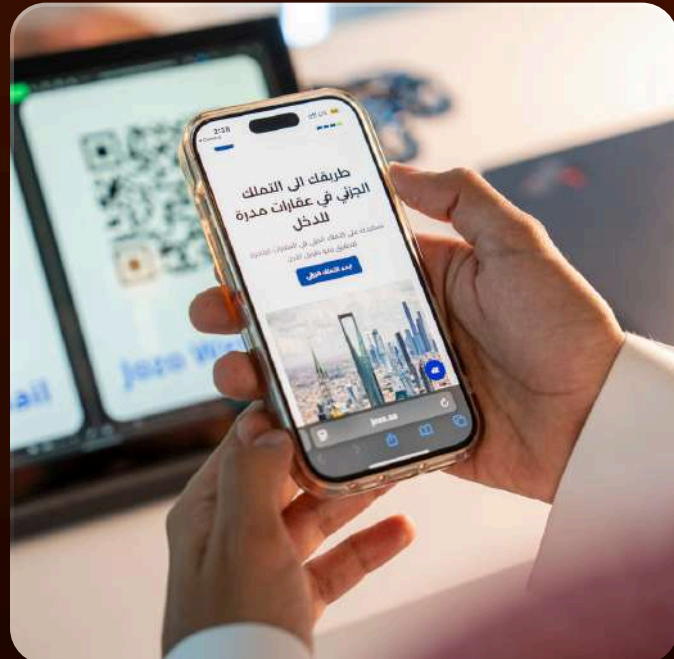

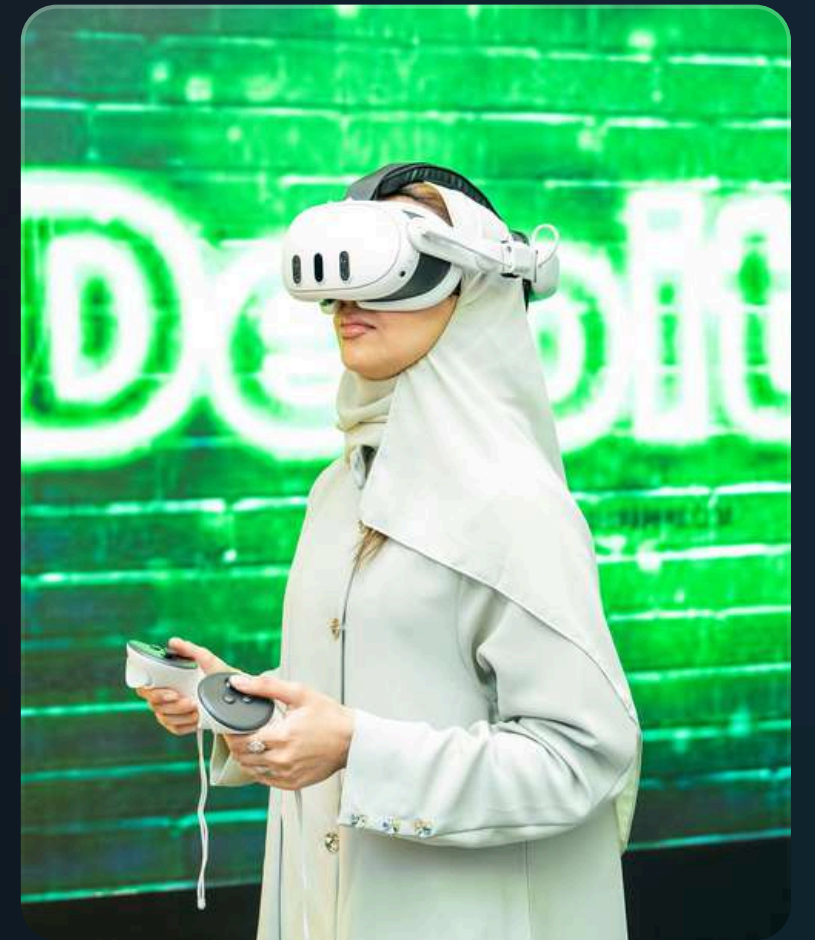

About the Summit

The Global PropTech Summit is the premier international gathering for real estate and technology leaders.

Over two days, decision-makers, innovators and investors explore how cutting-edge technology is reshaping the built environment — from smart cities to sustainable developments and AI-driven property solutions.

[▶ WATCH PROMO](#) [▶ LIVE STREAM](#)

Vision

To shape the **future infrastructure** of global real estate through **technology, capital, and policy.**

Mission

To convene **global leaders** across real estate and technology to **advance intelligent, transparent, and investable property markets**, positioning **Saudi Arabia as a global PropTech hub.**

Our Strategic **Goals**

- * Promoting Innovation
- * Knowledge Exchange
- * Networking Opportunities
- * Investment Opportunities and Financing
- * Education and Awareness
- * Celebrating Success Stories

The Global Hub for **PropTech** Innovation

Where technology, capital, and policy converge to **shape the future of PropTech.**

Uniting Global Leaders

Convening policymakers, investors, developers, and PropTech innovators **to advance real estate systems globally.**

Catalyzing Change

Advancing PropTech **adoption across AI, data, and tokenization** to enable more transparent, efficient, and investable markets.

Shaping The Future

Driving the transition toward intelligent, sustainable, and digitally enabled real estate through **global collaboration and Saudi execution.**

Years of Achievements

01

INDUSTRY SHOWCASE

Delivered a **dedicated PropTech exhibition**, bringing together local and international companies to present deployable technologies across real estate, urban systems, and digital infrastructure.

02

ECOSYSTEM DEVELOPMENT

Supported the launch of strategic initiatives advancing the sector, including the **inauguration of the Saudi PropTech Center (SPH)**, reinforcing the Kingdom's commitment to building a structured PropTech ecosystem.

03

INSTITUTIONAL MILESTONE

Facilitated the formation of **strategic partnerships and cross-sector collaboration**, connecting technology providers, investors, and regulators to accelerate innovation and market readiness.

04

MARKET TRANSFORMATION AGENDA

Reinforced **Saudi Arabia's position as a regional hub for real estate innovation**, supporting regulatory evolution, expanding investment pathways, and advancing the integration of digital solutions across the sector.

2026

SCALING INTELLIGENCE

THE THIRD EDITION

2026 Theme

SCALING INTELLIGENCE

TGPS 2026 represents a defining moment for the real estate sector. The foundational work of digital innovation has been laid — the imperative now is structured, scalable implementation. Scaling Intelligence reflects this transition: the deliberate integration of systems, data frameworks, and governance models that will determine how real estate is transacted, regulated, and operated at a national level. The Summit provides a high-level forum for policymakers, institutional leaders, and industry stakeholders to advance the digital infrastructure and operating standards that will shape the sector's next phase of transformation.

2026 Main Topics

Real Estate Tokenization

From regulatory pilots to scaled adoption: what will unlock institutional participation?

Saudi as a PropTech Sandbox

Regulation is fostering experimentation and speeding up deployment in Saudi Arabia.

AI in Asset Management

Where does AI deliver real ROI across leasing, operations, and portfolio strategy?

Digital Twins in Practice

What separates proof-of-concept from real operational value at asset and city scale?

Human-Centric Proptech

Investment models and ESG frameworks align profits with social and environmental outcomes.

Affordable Housing Solutions

Can PropTech enable scalable, cost-efficient housing without compromising quality?

Immersive Real Estate

Are VR and visualization technologies driving transactions or limited to marketing use cases?

Platforms & Marketplaces

Who will control the real estate tech stack as platforms consolidate the market?

Smart & Sustainable Assets

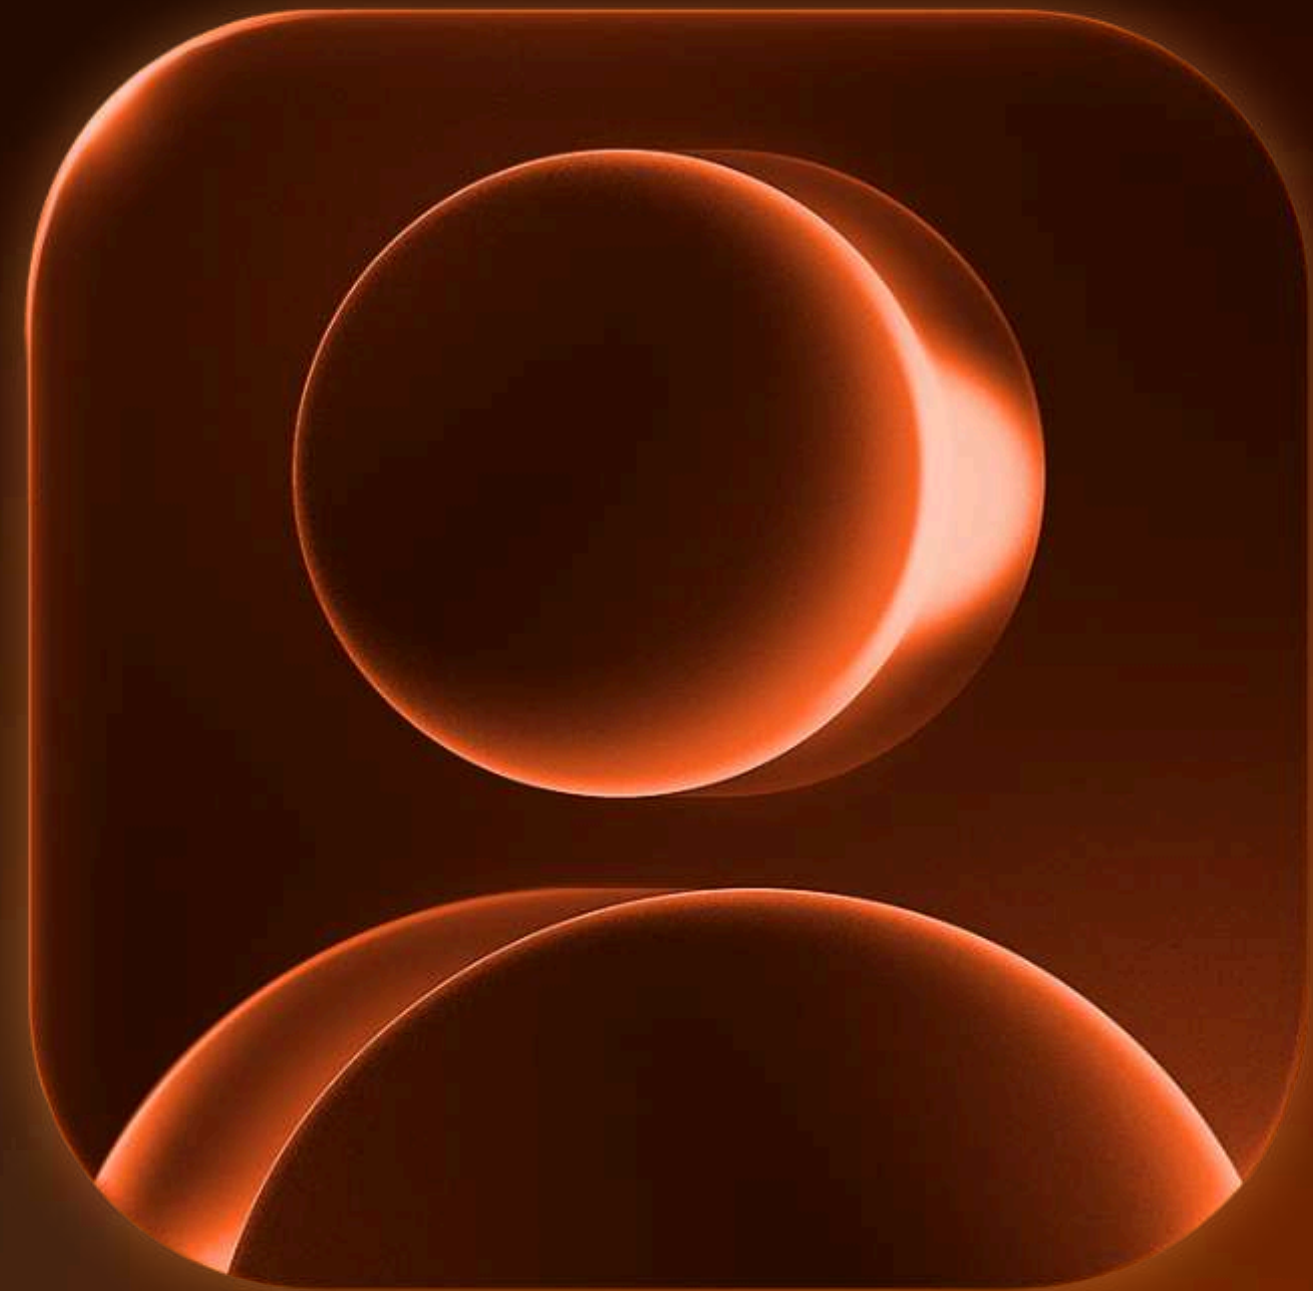

Can ESG technologies translate into measurable performance and long-term asset value?

The Next Asset Classes

How AI, data infrastructure, and logistics are redefining real estate investment.

2026 Potential **Speakers**

H.E. MR. MAJED AL-HOGAIL
Minister of Municipalities and Housing

H.E. MR. MOHAMMED ELKUWAIZ
Chairman of Capital Market Authority
